## NOT AVAILABLE

FOR SPECIAL FEATURES AND FINISHES, SEE PAGE 22.

THE STANDARD FINISH IS BRUSH BRASS.

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC.

## BASES

### STANDARD FLUTED CATCH

#### CONCEALED WIRING

##### 2 1/4" BRASS COVERED BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>BH</b> | 10          | 100          | 18          |

Screw spacing, 1 11/16 inches.

##### 2 1/8" PORCELAIN BASE

| Cat. No.          | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-------------------|-------------|--------------|-------------|
| <b>AX</b> Slotted | 10          | 100          | 19          |
| <b>AY</b> Solid   | 10          | 100          | 19          |

Screw spacing, 1 1/8 inches.

##### 2 3/4" PORCELAIN BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>AZ</b> | 10          | 100          | 32          |

Fits Type 500 Adaptiboxes, Types GN, HM, and W (Forms 5 and 10) Octagonal Unilets and Form 10 Round Opening Pipe Tablets.

Screw spacing, 2 1/4 inches.

##### ANGLE PORCELAIN BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>BA</b> | 10          | 100          | 23          |

Screw spacing, 1 1/8 inches.

#### CLEAT WIRING

##### PORCELAIN BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>AW</b> | 10          | 100          | 28          |

Screw spacing, 2 5/8 inches.

#### OUTLET BOX MOUNTING

##### FOR 3 1/4-INCH BOX

##### 3 5/8" BRASS COVERED BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>BL</b> | 10          | 50           | 23          |

Screw spacings, 2 and 2 3/4 inches.

##### FOR 3 1/4-INCH, 4-INCH AND SWITCH BOXES

##### 4 1/2" BRASS COVERED BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>BM</b> | 5           | 50           | 43          |

#### PLUG BASE

| Cat. No.  | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|-----------|-------------|--------------|-------------|
| <b>AV</b> | 10          | 50           | 7           |

With wires for connection to lampholder body.

NO. AA15  
BRYLOCK

## SPECIAL FEATURES

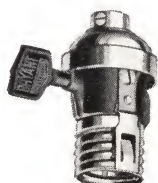

## "BRYLOCK" LOCK ATTACHMENT

The "Brylock" attachment prevents unauthorized removal of lamps from lampholders.

It consists of a pointed and hardened steel screw supported by a threaded sleeve. The sleeve is so fastened that when the pointed screw is turned by the special "Brylock" key, it pierces the lamp base and effectively prevents the lamp from being turned.

"Brylock" keys are not supplied with lampholders, but must be ordered separately. Most Bryant brass shell lampholders may be supplied with this feature. "Brylock" key is No. 631.

## LAMP GRIP

NO. AA10-LG

The use of the lamp grip, as illustrated, effectually prevents the lamp from loosening. This feature can be applied to most mogul and medium base devices. Add "LG" to catalog number.

## LEFT HAND SCREW SHELLS

Left hand screw shells will be supplied on most lampholders on special order. They are designed to take lamps with left hand bases where it is desirable to have a non-standard base.

## INSULATED CHAIN

NO. AA15  
INSULATED  
CHAIN

Any pull device can be equipped with No. 513 insulating link shown on page 21.

## SPECIAL LENGTH CHAIN

Pull devices will be furnished with chain longer than the regular 6½-inch chain on special order, at extra cost. Devices with chains shorter than regular will be furnished at the same price as regular.

## PULL CORD

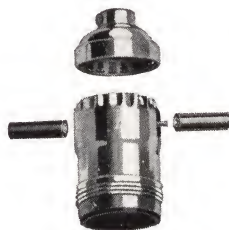

Pull devices regularly fitted with 6½ inches of chain and a brass pendant can be furnished with a short chain, 4 feet of cord and a composition ball at additional cost.

White cord can be furnished when specified at no extra charge.

For cord and composition balls when sold separately, see page 21.

Use No. 810 splicing link (page 21) to connect chain to cord.

## REMOVABLE PUSH BUTTONS

NO. WA81-RB

Push button lampholders will be supplied on special order with removable buttons 2⅝ inches long over all. Add "RB" to catalog number.

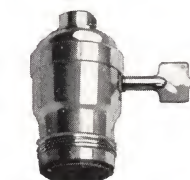

Overall length of non-removable buttons is 1⅞ inches on both standard and electrolier types.

## METAL KEYS

Removable metal keys will be supplied on special order. The regular length is one inch from the lampholder shell.

## BRASS COLOR COMPOSITION KEYS

Keys made of composition to match brush brass will be supplied on special order. The color is solid and will not wear off.

NO. AA10  
METAL KEY

## SPECIAL FINISHES

The regular finish of brass shell lampholders, unless otherwise noted, is brush brass which will be supplied when no finish is specified.

Regular and special finishes of the same device may be assorted to make up the standard package quantity.

When a special finish must match hardware, send a sample to avoid mistakes.

The special finishes tabulated below represent those which are listed in the price bulletin at extra cost.

## FOR COMPLETE PROTECTION AND UNINTERRUPTED SERVICE

**SELF-CLOSING**—Protection against electrical hazards is assured at all times by the self-closing feature which seals the live portion of the connector instantly when the cap is ejected.

**POSITIVE LOCKING**—A twist to the right and it's locked. Cannot pull apart accidentally.

**SELF-EJECTING**—A simple twist to the left causes the cap to be ejected, quickly disconnecting the circuit.

**NON-ARCING**—The quick break provided by the self-ejecting feature, combined with the arc snuffing characteristic of the spring actuated bakelite plunger, makes these devices suitable as a disconnecting means under full rated load.

ALL EXPOSED METAL PARTS ARE CADMIUM PLATED

4-WIRE DEVICES ARE REGULARLY FURNISHED "GROUNDED", UNLESS OTHERWISE SPECIFIED

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC.

## 2-WIRE

 $\frac{15}{10}$  } AMPERES  $\frac{125}{250}$  } VOLTS

**MIDGET TYPE**—For small appliances and equipment. Made of Brown Bakelite. The steel cord grips match the bakelite.

|--------|----|----|----|
| TL7329 | 10 | 30 | 10 |
|--------|----|----|----|

Screw spacing,  $\frac{5}{8}$  inch.

NO. TL7329

## TWIST-LOCK DEVICES

### PROVIDE UNINTERRUPTED SERVICE

**CONTINUOUS SERVICE**—Where interruptions would be costly or hazardous, Twist-Lock devices insure continuous service. They never part in the middle of a job. The locking connection withstands kicks, jerks and vibration.

**FULLY PROTECTED**—Properly polarized and grounded, Twist-Lock devices furnish protection to users of portable motor-driven tools and equipment.

**TWIST-LOCK FOR EVERY NEED**—Whether the application requires 2, 3 or 4-Wire connectors in sizes ranging from Midget to the 30-Ampere industrial size, there is a Twist-Lock device for the job.

# FLUSH TUMBLER SWITCHES

NO. 5861

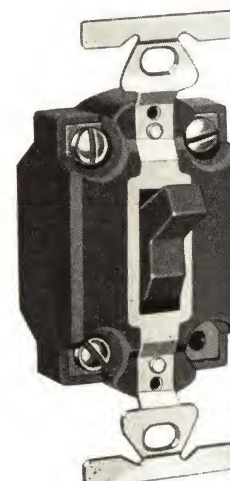

NEW

20-AMPERE SHALLOW

FLUSH SWITCHES

1½ INCHES DEEP

“T” RATED

NO. 5863

## ALL THE TIME PROVEN FEATURES PLUS SOME NEW ONES

- EXCELLENT PERFORMANCE**—New simplified mechanism insures trouble-free service.  
**UNBREAKABLE PLASTIC HANDLE**—Made of material especially developed to resist abuse. Choice of brown, ivory or black.  
**EASY TO WIRE**—Large binding screws recessed to facilitate wrapping of wire.  
**BAKELITE ENCLOSED**—Fully enclosed in bakelite casing with extra thick walls.  
**INSULATED YOKE**—One piece design yoke, with plaster ears—completely insulated from mechanism.  
**FULLY APPROVED**—U.L. “T” rated—Conforms with Federal Specifications.  
**COSTS NO MORE**—A compact “T” rated 20-ampere switch. The last word in tumbler switch design at no increase in cost.

ALL SWITCHES RATED 20A., 125V.-T; 20A., 250V.

## SUNDRY

### MOUNTING STRAPS

A mounting strap is packed with each plate. They may, however be ordered separately.

Plate screw hole spacing,  $3\frac{1}{2}$  inches.

### WITH SINGLE VERTICAL OPENING

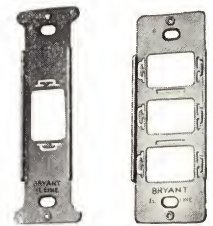

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt.    |
|----------|-------------|--------------|----------------|
| IL1347   | 10          | 50           | $2\frac{1}{2}$ |

Dimensions:  $4\frac{3}{32} \times 1\frac{5}{16}$  inches.

### WITH THREE HORIZONTAL OPENINGS

|        |    |    |                |
|--------|----|----|----------------|
| IL1348 | 10 | 50 | $3\frac{1}{4}$ |
|--------|----|----|----------------|

Dimensions,  $4\frac{3}{32} \times 1\frac{15}{32}$  inches.

NO. IL1347 NO. IL1348

### BOX COVERS

WITH MOUNTING STRAP—CADMIUM PLATED

For mounting any one device on a  $3\frac{1}{4}$ -inch outlet box, or any one or two devices on a 4-inch outlet box.

### ONE OPENING FOR $3\frac{1}{4}$ -INCH BOX

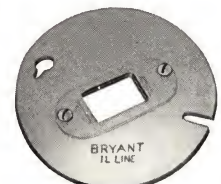

|        |    |     |    |
|--------|----|-----|----|
| IL1361 | 10 | 100 | 26 |

- OV41-CD**—Duplex outlet plate, dull
- OV41-CP**—Duplex outlet plate, polished

### CHROMIUM FINISH—HIGH GRADE

This high grade chromium finish is a heavy durable plating and retains its beauty indefinitely. The plate is coated with copper and nickel before the chromium is applied. To order add the letters "CHR" to regular catalog designation and state whether polished or dull chromium finish is desired.

### GOLD PLATING

Genuine gold finish can be furnished when specified. Prices quoted upon application. A sample of the finish required is necessary.

### PLATES FOR PLATING

Plates which are to be plated by purchaser should be ordered "for plating." They will be billed at the price of corresponding brush brass plates.

### PLATES FOR PAINTING

Plates which are to be painted by the purchaser should be ordered "for painting." They will be billed at the price of corresponding spray brass finish.

### BAKELITE LACQUER

Plates may be furnished when specified to match brown, ivory or black bakelite plates. This finish is recommended in cases where no bakelite plate is available. Lacquer finishes may be applied to any bakelite or brass plate.

## SPECIAL FEATURES—METAL PLATES

**ROUND AND SQUARE EDGES**—Solid plates only may be furnished with round corners and round edges, round corners and beveled edges and round corners and square edges at an addition to the list price. Plates with square corners and square edges will be furnished when specified at no extra charge.

**PLATES WITH RAISED EDGES**—Plates may be furnished when specified with raised edges.

**ENGRAVING**—Plates may be engraved with standard block letters in any size. Letters are regularly filled in with black but may be filled in with other colors when specified.

**HAMMERED PLATES**—Solid plates only may be furnished hammered to match customer's sample.

## SPECIAL METALS

The following metals can be furnished on order:

**ALUMINUM**—.100 (Solid) or .060 inch thick.

**Genuine BRONZE**—.100 (Solid), .060 or .040 inch thick.

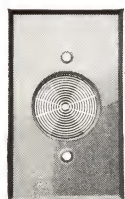

**NICKEL SILVER**—.100 (Solid), .060 or .040 inch thick.

FOR LIST PRICES ON FLUSH PLATE FINISHES AND FEATURES SEE PAGES 19 AND 20 OF LIST PRICE BULLETIN FOLLOWING PAGE 95.

## 600-VOLT SWITCHES

FOR INDUCTIVE LOADS AND ELECTRIC  
RAILWAY CIRCUITS

Because of the difference in operating characteristics of inductive apparatus, it is not possible to guarantee expulsion type switches on all inductive loads, but they will give better results on inductive loads than the regular type of rotary switches.

They are designed with barriers between parts of opposite polarity which are effective in limiting the arc formed when the circuit is broken.

The window in cover of indicating switches is located so that, when switch is mounted on a wall above eye level, the indications can be read right side up under the handle. Slotted bases furnished on specification. Solid bases are standard.

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 4131     | Keyless     | 10          | 100          | 22          |

Furnished with two  $\frac{7}{8}$ -inch 6 x 36 round head pointed brass screws.

Each terminal has two binding screws.

Diameter of base,  $1\frac{3}{4}$  inches.

Height,  $1\frac{1}{2}$  inches.

Screw spacing,  $1\frac{3}{8}$  inches.

NO. 4131

## BAKELITE LAMPHOLDERS

250 WATTS, 250 VOLTS

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 4160     | Key         | 10          | 100          | 28          |

Furnished with two 1 inch, 8 x 32 round head pointed brass screws.

Center of base to end of key,  $1\frac{11}{16}$  inches.

NO. 4160

660 WATTS, 250 VOLTS

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 4161     | Keyless     | 10          | 100          | 21          |

Furnished with two 1 inch, 8 x 32 round head pointed brass screws.

Each terminal has two binding screws.

Diameter, 2 inches, Height,  $1\frac{1}{2}$  inches.

Screw spacing,  $1\frac{3}{8}$  inches.

NO. 4161

## SCREW-SHELL INSULATORS

BAKELITE FOR NOS. 4160 AND 4161

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt.    |
|----------|-------------|--------------|----------------|
| 4260     | 10          | 100          | $9\frac{1}{2}$ |

Diameter, 2 inches. Mounts on Base.

NO. 4260

## COMPOSITION FOR NOS. 4130 AND 4131

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| 571      | 10          | 100          | 10          |

Threads to screw shell. Cannot be used on receptacles with lamp grip.

Diameter,  $1\frac{5}{8}$  inches.

NO. 571

## PAPER FOR ABOVE DEVICES

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt.   |
|----------|-------------|--------------|---------------|
| *571-B   | 10          | 100          | $\frac{1}{2}$ |

Cannot be used on receptacles with lamp grip.

Diameter,  $1\frac{5}{8}$  inches.

Length, 1 inch.

Thickness,  $\frac{1}{32}$  inch.

NO. 571-B

FOR LAMPHOLDER FEATURES, SEE PAGE 22.

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC., EXCEPT WHERE MARKED (\*).

## DEVICES FOR NARROW INSTALLATIONS

Especially adaptable for narrow partitions and spaces encountered in marine wiring.

### PLATES

#### VERTICAL OPENING FOR ONE DEVICE

SCREW HOLE SPACING— $3\frac{1}{8}$ "  
PLATE DIMENSIONS— $1\frac{3}{8}$ " X  $4\frac{1}{2}$ "

| Cat. No. | Description           |
|----------|-----------------------|
| IL1010   | Brown Bakelite        |
| IL1010-I | Ivory                 |
| IL1347   | Steel Yoke for Device |

SCREW HOLE SPACING— $2\frac{3}{4}$ "  
PLATE DIMENSIONS— $1\frac{3}{8}$ " X  $4\frac{1}{2}$ "

| Cat. No. | Description           |

|----------|-------------|---------|---------|
| IL1320   | IL1420      | Single  | 15 10   |

For other devices which may be used with these plates and yokes see pages 56 and 57.

## MARINE RECEPTACLES AND PLUGS

15 AMPERES, 125 VOLTS; 10 AMPERES, 250 VOLTS

### HEAVY DUTY RECEPTACLES

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 583      | 2-wire      | 10          | 20           | 11          |
| 584      | 3-wire      | 10          | 20           | 11          |

Diameter of base,  $2\frac{3}{8}$  inches.

Height,  $1\frac{3}{4}$  inches.

Screw spacing,  $1\frac{1}{8}$  inches.

NO. 583

### PLUGS, WITH CABLE CLAMP

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 587      | 2-wire      | 10          | 20           | 10          |
| 588      | 3-wire      | 10          | 20           | 10          |

NO. 588

### WATER-TIGHT PLUGS

Provided with cast brass octagonal collar cap with inside diameter 2 in., 16 threads. Fits Crouse-Hinds GS and Adapti Nos. 9900 and 9968 Covers. For cables not over  $\frac{9}{16}$  inch diameter.

| Cat. No. | Description | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|-------------|--------------|-------------|
| 585      | 2-wire      | 10          | 20           | 16          |
| 586      | 3-wire      | 10          | 20           | 16          |

Boxes to accommodate these marine receptacles and plugs can be obtained from the Adapti Co., Cleveland, Ohio; Appleton Electric Co., Chicago, Ill.; Crouse-Hinds Co., Syracuse, N. Y.; The Pyle-National Co., Chicago, Ill.; Russell & Stoll Co., New York, N. Y.

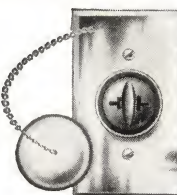

NO. 585

## SEALED CONVENIENCE OUTLETS

15 AMPERES, 125 VOLTS; 10 AMPERES, 250 VOLTS

### WITH THREAD-ON COVER

| Cat. No. | Description        | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|--------------------|-------------|--------------|-------------|
| 3795     | Two-wire—"T" slots | 2           | 10           | 6           |
| 3796     | Three-wire         | 2           | 10           | 7           |

NO. 3795

## WATER-TIGHT DOOR SWITCH

6 AMPERES, 125 VOLTS; 3 AMPERES, 250 VOLTS

Mounted in cast brass box with  $\frac{1}{2}$  inch pipe outlets in top, bottom and back and a stuffing box around the plunger.

| Cat. No. | Description             | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------------------|-------------|--------------|-------------|
| 2750     | "ON" when door is open  | 2           | 10           | 24          |
| 2731     | "OFF" when door is open | 2           | 10           | 24          |

Dimensions:  $5\frac{5}{16}$ " x  $1\frac{5}{16}$ " x  $2\frac{1}{2}$ " deep. A brass strike plate is furnished.

NO. 2750

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC.

## INSULATED SYSTEM DEVICES

## ON BAKELITE BOX COVERS

These devices are suitable for either insulated or grounded installations. They are therefore ideal for farm installations where grounding is difficult. Bakelite cover is impervious to moisture and fumes.

NO. 5714

## LAMP HOLDERS

# PLUG FUSE CUTOUT BASES

## FUSED NEUTRAL

30 AMPERES, 125 VOLTS

### SINGLE-POLE—MAIN LINE

NO. H110

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H110     | 10          | 100          | 38          |

Dimensions:  $2\frac{3}{4} \times 1\frac{29}{32}$  inches.

### TWO-POLE—MAIN LINE

NO. H220

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H220     | 10          | 100          | 61          |

Dimensions:  $2\frac{15}{16} \times 2\frac{9}{16}$  inches.

### TWO-POLE—SINGLE-BRANCH

NO. H221

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H221     | 5           | 50           | 46          |

Dimensions:  $2\frac{15}{16} \times 3\frac{13}{32}$  inches.

### TWO-POLE—SINGLE OR DOUBLE CROSSOVER BRANCH

NO. H224

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H224     | 5           | 50           | 53          |

Dimensions:  $3\frac{3}{8} \times 3\frac{3}{8}$  inches.

### TWO-POLE—DOUBLE-BRANCH

NO. H222

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H222     | 5           | 50           | 67          |

Dimensions:  $2\frac{15}{16} \times 5\frac{9}{32}$  inches.

### TRIPLE TO DOUBLE-POLE DOUBLE-BRANCH

NO. H232

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H232     | 5           | 50           | 79          |

Dimensions:  $2\frac{15}{16} \times 6\frac{5}{16}$  inches.

### THREE-POLE—MAIN LINE

NO. H330

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H330     | 5           | 50           | 50          |

Dimensions:  $2\frac{9}{16} \times 4\frac{7}{16}$  inches.

### THREE-POLE—SINGLE-BRANCH

NO. H331

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H331     | 5           | 50           | 96          |

Dimensions:  $4\frac{7}{16} \times 4\frac{5}{8}$  inches.

### THREE-POLE—DOUBLE-BRANCH

NO. H332

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H332     | 5           | 50           | 126         |

Dimensions:  $4\frac{7}{16} \times 6\frac{5}{16}$  inches.

## SOLID NEUTRAL

### TWO-POLE—MAIN LINE

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H120     | 10          | 150          | 64          |

Dimensions:  $2\frac{1}{4} \times 2\frac{1}{2}$  inches.

NO. H120

### TWO-POLE—SINGLE-BRANCH

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H121     | 10          | 100          | 76          |

Dimensions:  $2\frac{1}{4} \times 3\frac{5}{8}$  inches.

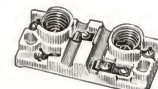

NO. H121

### TWO-POLE—DOUBLE-BRANCH

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H122     | 5           | 50           | 51          |

Dimensions:  $2\frac{1}{4} \times 5\frac{1}{4}$  inches.

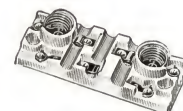

NO. H122

### TRIPLE TO DOUBLE-POLE DOUBLE-BRANCH

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H132     | 5           | 50           | 61          |

Dimensions:  $2\frac{1}{4} \times 6\frac{3}{8}$  inches.

NO. H132

### THREE-POLE—MAIN LINE

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H133     | 5           | 50           | 49          |

Dimensions:  $2\frac{1}{2} \times 4\frac{3}{8}$  inches.

NO. H133

### THREE-POLE SINGLE-BRANCH OR TWO-CIRCUIT

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H131     | 5           | 25           | 30          |

Dimensions:  $3\frac{1}{8} \times 4\frac{11}{16}$  inches.

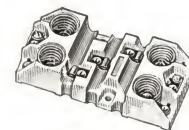

NO. H131

### THREE-POLE DOUBLE-BRANCH OR FOUR-CIRCUIT

| Cat. No. | Car-<br>ton | Std.<br>Pkg. | Pkg.<br>Wt. |
|----------|-------------|--------------|-------------|
| H134     | 5           | 25           | 47          |

Dimensions:  $3\frac{1}{8} \times 6\frac{3}{8}$  inches.

NO. H134

Carton boxes or covers, 2; standard package, 10.

NO. 8405

FOR SMALL SINGLE PHASE A.C. REPULSION INDUCTION, SPLIT PHASE, CAPACITOR  
AND D.C. MOTOR CONTROL. MAXIMUM VOLTAGE 230 A.C., 250 D.C.  
(ESPECIALLY ADAPTABLE TO WASHING MACHINES, OIL BURNERS, PUMPS, POWER DRIVEN TOOLS, ETC.)

## APPLICATION

Type H Sentinel Breakers are for use on one horsepower and fractional horsepower motors. They provide protection from damage which might be caused from low voltage, locked rotor or overload conditions. They are used on branch circuits in series with the regular branch circuit fuse; the breaker gives motor protection and the fuse protects against short circuits.

## POSITIVE MOTOR PROTECTION

Due to the time lag feature the Type H Breaker, when properly applied, permits sufficient time delay to successfully start small motors with starting current high in ratio to the full load current, and also permits the motor to carry momentary overloads without disconnecting it from the line. It will, however, disconnect the motor from the line on any character of overload which might be injurious to the motor.

## INTERCHANGEABLE HEATER UNITS

The Type H Breaker is so designed that the heater unit is removable and interchangeable, thus affording any desired rating up to capacity.

## USE AS A SWITCH

The Breaker may also be used as a convenient switch by moving the handle to the position marked "ON" to start, and to the position marked "OFF" to stop the motor.

## CONSTRUCTION

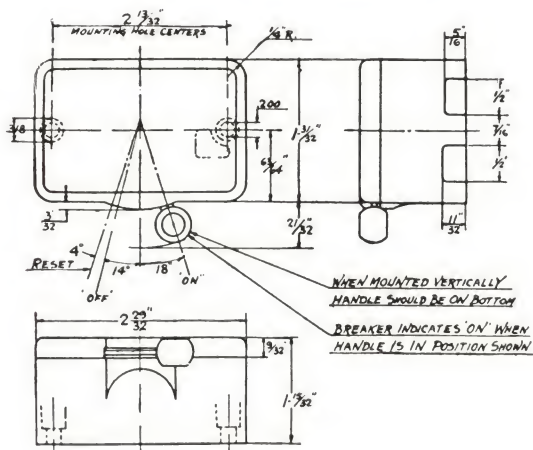

The switch mechanism is of rugged construction, arranged to give quick make and quick break, and is trip free of the handle. The term "trip free" means that the breaker cannot be held in the "ON" position should a dangerous overload exist. The housing is made of black bakelite, a heat resisting and insulating material, strong and durable.

When in doubt as to which rating to select, write us, giving complete motor information as given on the motor nameplate, i.e., the type, full load amperes and voltage, together with the motor application.

115/230-Volt Ratings are for use on systems where voltage to ground does not exceed 115 volts.

### INFORMATION ON NEUTRAL

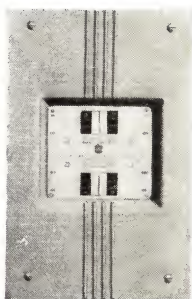

**GROUNDED NEUTRAL**—Up to six branch circuits for combined service entrance and branch circuit use. No separate service entrance device is required by National Electric Code (See paragraph 2351-A).

**INSULATED NEUTRAL**—Up to sixteen branch circuits for branch circuit use only away from service entrance. Separate service entrance device is required by National Electric Code (See paragraph 2351-A).

**NO NEUTRAL**—For straight 220 Volt Water Heater Circuits.

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC.

**ORDERING INFORMATION**

**MOUNTING**—Be sure to add "F" to catalog number for flush mounting or "S" for surface mounting.

**RAINTIGHT BOX**—Standard on Type MBM. Can also be furnished on Types M1 and MB up to 8 Poles. Prefix letter "R" to catalog number.

**METER ENDWALL BOX**—Can be furnished on Type MB up to 8 Poles. Prefix letter "H" to catalog number.

**CONDUIT HUBS**—Can be furnished with  $\frac{3}{4}$ , 1,  $1\frac{1}{4}$ ,  $1\frac{1}{2}$  and 2-Inch Hubs. Specify size and state whether one or two hubs are desired at top or if one is desired at top and bottom.

**PACKING**—Types MO, M1 and M2 and all Raintight multi-breakers packed complete in one carton. All others packed separate; box in one carton, Interior and Front in another carton.

**SPECIAL COMBINATIONS**—Combinations other than those listed may be supplied on order.

**NOFUZE TYPES AT A GLANCE**

**TYPE MO—25-AMPERE FRAME**

2 AND 3-WIRE

For Water Heater, Range, Auxiliary Circuits and Small Service Entrance.

**BRANCH CIRCUITS**—1 and 2

**RATINGS**—15, 20 and 25 Amperes

**TYPE M1—50 AND 70-AMPERE MAINS**

2, 3, AND 4-WIRE

For Water Heater, Range, Auxiliary Circuits and Service Entrance.

**BRANCH CIRCUITS**—1 to 3

**RATINGS**—15, 20, 25, 35 and 50 Amperes

**TYPE M2—100-AMPERE FRAME**

2 AND 3-WIRE

For Service Entrance, Ranges and Water Heaters.

**BRANCH CIRCUITS**—1

**RATINGS**—50, 70, 90 and 100 Amperes

**TYPE MB—35, 70 AND 100-AMPERE MAINS**

2, 3, AND 4-WIRE

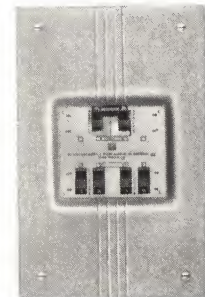

For Combined Service Entrance and Branch Circuit Use, or Branch Circuits alone.

**BRANCH CIRCUITS**—

Grounded Neutral—1 to 6

Insulated Neutral—1 to 16

**RATINGS**—15, 20, 25, 35, and 50 Amperes.

**TYPE MBM—35 AND 70-AMPERE MAINS**

2 AND 3-WIRE

For Service Entrance and Branch Circuits with separately metered 20-Ampere Water Heater Circuit.

**BRANCH CIRCUITS**—Up to 6, Plus 1 Double-pole Heater Circuit.

**RATINGS**—15, 20, 25, 35 and 50 Amperes.

20-Ampere Water Heater circuit is standard but 15, 25, 35 or 50-Ampere Breakers can be supplied on special order without extra cost.

For complete details on Bryant Multi-Breakers refer to Bryant Nofuze Bulletin NF-639.

**Catalog Nos. 6209, 6249, 6259,  
6269, 6279, 6289, and 6299.**

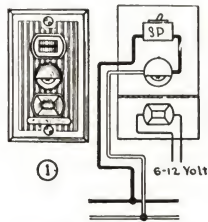

## OPERATION

High—Two coils in parallel  
Medium—One coil on  
Low—Two coils in series  
Off—All off

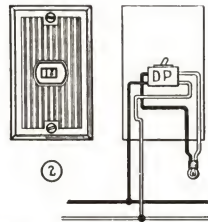

Further data will be supplied upon request.

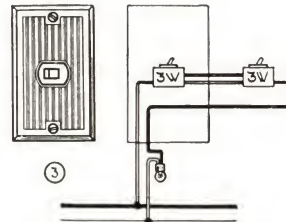

## FOR INTERCHANGEABLE DEVICES—PAGES 56 TO 59

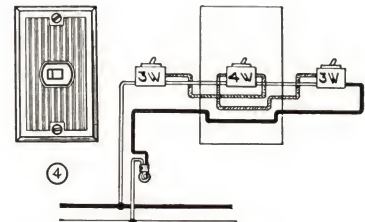

Front Door Combination

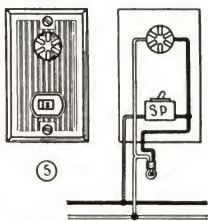

For Breaking both sides of line

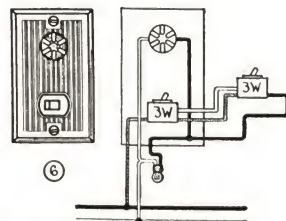

For controlling lights from two points

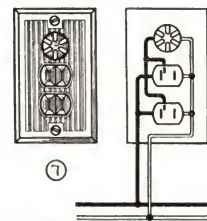

For controlling lights from three points

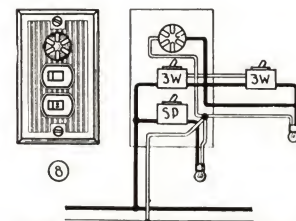

For controlling lights from one point with pilot light indication

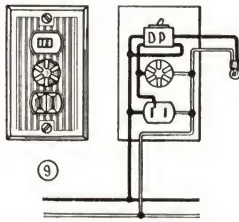

For controlling lights from two points with pilot light indication

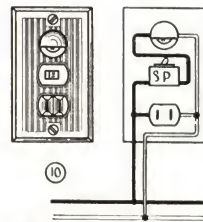

Two Power Outlets with pilot light indication

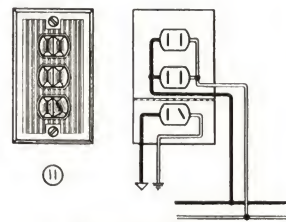

Lights controlled from two points with pilot, and lights controlled from one point

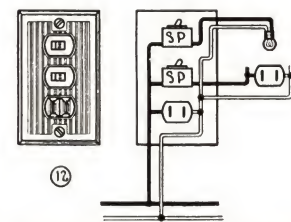

Dual combination pilot indicates for outlet and cellar light

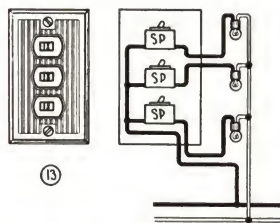

Nursery or Hall combination night light with switch and outlet

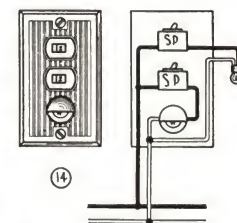

Radio combination Two Power and Radio outlet

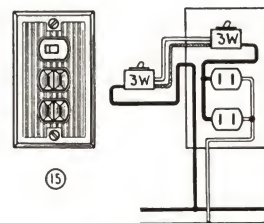

Lights controlled from one point-outlets controlled by switch and outlet hot for Vacuum cleaner, etc.

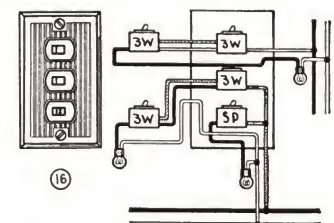

For controlling three lights individually from the same point

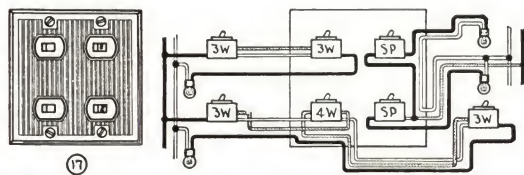

For controlling lights from one point and night light with switch

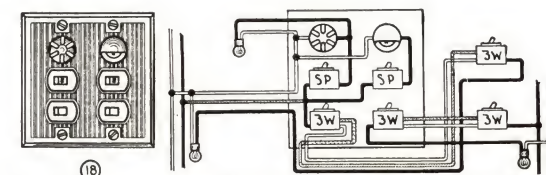

Outlets controlled from two points, example switch in bedroom and switch and outlets in kitchen

Two lights controlled from two points and one from one point, example living room, upper hall and porch

Two lights controlled from one point, one light from two points and one light from three points, example: porch, vestibule living room and upper hall

Upper hall combination, switch and pilot for attic light, switch and night light for hall, 3 way for hall light and three way for living room light

## A COMPLETE LINE AND A COMPLETE SERVICE

THE COMPLETE LINE IS DESCRIBED IN A SEPARATE CATALOG WHICH WILL BE SENT UPON REQUEST. In addition, the Bryant Engineering Department stands ready to assist architects, engineers and contractors in laying out particular installations.

The bedside calling station is operated by the patient. Calls can only be cancelled at the bedside. Although the devices are designed for use on 125 volts, suitable low voltage lamps, buzzers and transformers are available to permit operation at lower voltages when desired.

**BEDSIDE CALLING STATIONS:** Single gang or in combination with bull's eye, switch, power and radio outlets, etc.

**ANNUNCIATORS:** 2 to 150 signals in flush, surface or double-face bracket mounting.

**DOME LIGHTS:** One to four light types, with or without buzzers. Also bedside Roto-Lights.

**AUDIBLE SIGNALS:** Bells and buzzers; either flush or surface mounted, in high and low voltages.

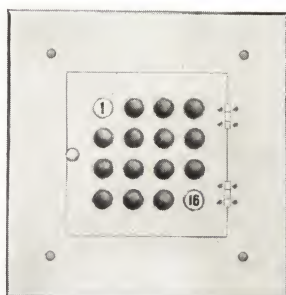

**DOCTORS' "IN AND OUT" REGISTER:** 20 to 200 signals.

**DOCTORS' PAGING SYSTEM:** Three signals simultaneously—120 code calls.

**ELAPSED-TIME RECORDERS:** Four sizes—5, 10, 15 and 20 pen.

ALL DEVICES ON THIS PAGE LISTED AS STANDARD BY UNDERWRITERS' LABORATORIES, INC.

## SUGGESTED STANDARDS OF ADEQUATE RESIDENCE WIRING

The following standards of wiring adequacy are intended to provide convenience and facility for operation and use of electrical service and appliances in residential installations.

They may not apply to all types of buildings in all localities. Such provisions as are actually inappropriate may be omitted.

Those items indicated by an asterisk (\*) are desirable in any dwelling but may be considered as optional in homes costing less than \$5,000.

Typical Bryant catalog numbers are specified in the standards for convenience in the selection of a device best suited for the application.

ENTRANCES, PORCHES, TERRACES,  
PATIOS, ETC.

**Lighting and Switch Outlets:** One ceiling or at least one wall outlet outside front entrance with switch control (Bryant No. 3951 or H61 or H51 inside the door).

\*Single lighting outlets outside at side and rear doors with inside switch control (Bryant No. 3951 or H61 or H51).

On covered porches, at least one ceiling outlet with inside switch control (Bryant No. 3951 or H61 or H51). Additional outlets desirable on the basis of one for each 100 square feet of floor area.

**Convenience Outlets:** \*At least one weatherproof convenience outlet (Bryant No. 3880) for decorative lighting at front entrance.

Convenience outlets on porches, terraces and patios (Bryant No. 3880) to provide one outlet for each 15 feet along the house.

## HALLS AND STAIRWAYS

**Lighting and Switch Outlets:** One ceiling or wall outlet on each floor to illuminate head and foot of staircase. Additional outlets, for instance, to provide at least one for every 15 feet of any hall or passage. All such outlets to be switch controlled (Bryant No. 3951 or H61 or H51) with additional requirement that for any stairway at both ends of which are finished rooms, multiple control switches, (Bryant No. 3953 or H63 or H53) be used to provide independent control of lights on each floor from either floor.

**Convenience Outlet:** One convenience outlet (Bryant No. 4832 or H142) for every 20 feet or major fraction thereof of hall and passage.

LIVING ROOMS, BEDROOMS, RECEPTION HALL,  
LIBRARY, DEN, SUN ROOM, RECREATION ROOM,  
ENCLOSED PORCHES, ETC.

**Lighting and Switch Outlets:** One ceiling outlet for lighting in each room, switch controlled (Bryant No. 3951 or H61 or H51) from main entrance, with multiple control (Bryant No. 3953 or H63 or H53) if doorways commonly used for entrance or departure are more than 10 feet apart.

\*Wall outlets as desired, with wall switch control (Bryant No. 3951 or H61 or H51) if used for general illumination.

**Convenience Outlets:** Convenience outlets (Bryant No. 4832 or H142) placed so that no point along the floor line in any usable wall space, unbroken by a doorway, is more than 6 feet from an outlet in that space. At least one convenience outlet (Bryant No. 4832 or H142) in every usable wall space 3 feet or more in length.

DINING ROOM, DINETTE, BREAKFAST ROOM,  
BREAKFAST NOOK, ETC.

**Lighting and Switch Outlets:** One ceiling outlet in each such room or space controlled by wall switch (Bryant No. 3951 or H61 or H51), such control to be multiple (Bryant No. 3953 or H63 or H53) if doors commonly used for entrance or departure are more than 10 feet apart.

\*Wall outlets as desired, for decorative purposes or for supplementary illumination.

**Convenience Outlets:** At least two convenience outlets (Bryant No. 4832 or H142) in each room having a floor area of more than 100 square feet so located as to provide one in every wall space adaptable to the placement of a buffet, serving tables, etc. In very small rooms where the table will be placed against the wall, one convenience outlet (Bryant No. 4832 or H142) at table height is sufficient.

## KITCHEN, KITCHENETTE, PANTRY

**Lighting and Switch Outlets:** One ceiling outlet for lighting controlled by a wall switch or switches (Bryant No. 3951 or H61 or H51). Supplementary lighting outlets as needed to provide illumination at range, sink and other work areas.

**Convenience Outlets:** Convenience outlets (Bryant No. 4832 or H142) at or adjacent to every work surface. In addition, outlets conveniently located for such appliances as refrigerator (Bryant No. 4832 or H142), dishwasher sink (Bryant No. 4832 or H142), clock (Bryant No. 2992) and ventilating fan (Bryant No. 4832 or H142) as are to be installed.

**Range Outlet:** One outlet (Bryant No. 3846 flush or 3826 surface) to provide a range connection.

## BATHROOMS AND LAVATORIES

**Lighting and Switch Outlets:** A ceiling outlet plus provision for lighting at the mirror for the usual bathroom. For small bathrooms (less than 60 square feet) and for lavatories, wall outlets at the mirror are sufficient. A single switch (Bryant No. 3951 or H61 or H51) at entrance should control ceiling outlet if installed; the wall outlets should be switch controlled (Bryant No. 3951 or H61 or H51) at the entrance if used alone.

A ceiling outlet for vapor-proof lighting fixture in any completely enclosed shower compartment, controlled by wall switch (Bryant No. 3951 or H61 or H51) outside the compartment.

**Convenience Outlet:** A convenience outlet (Bryant No. 4832 or H142) installed 3 to 4 feet from the floor and not adjacent to the tub.

A sidewall lampholder with outlet (Cat. No. H135) is also available.

## SUGGESTED STANDARDS OF ADEQUATE RESIDENCE WIRING—CONTINUED

## CLOSETS

**Lighting Outlet:** An outlet for lighting in every closet (Bryant No. 4104 or 4278 or H268) 3 feet or more deep or having a floor area of over 10 square feet except where shelving would make any light source ineffective.

## LAUNDRY OR LAUNDRY SECTION

**Lighting and Switch Outlets:** A ceiling outlet for lighting over trays or tubs. A ceiling outlet for lighting over probable location of ironer or ironing board. At least one of these outlets controlled by switch (Bryant No. 3951 or H61 or H51) at entrance to enclosed laundry space. One combination switch, receptacle and pilot light (Bryant No. 55350) to provide connecting means for washer or ironer with indicating control.

Additional outlets (Bryant No. 4832 or H142) for appliances such as hot plate and portable clothes dryer, if these are planned.

## BASEMENT

**Lighting and Switch Outlets:** A ceiling outlet (Bryant No. H227 or H73) at the foot of the stairs controlled by wall switch and pilot light (Bryant No. 2959) at the head. Additional ceiling outlets (Bryant No. H267 or H137 with side outlet) as needed in front of furnace, over the work bench and in each enclosed space.

**Convenience Outlets:** At least one convenience outlet (Bryant No. 4832 or H142) for general use.

## UNFINISHED ATTIC

**Lighting and Switch Outlets:** One ceiling outlet (Bryant No. H227 or H73) for lighting at top of the stairs controlled by wall switch and pilot light (Bryant No. 2959) at the foot. Additional lighting outlets for each enclosed space. (Bryant No. 4275 or H265).

**Convenience Outlets:** At least one convenience outlet (Bryant No. 4832 or H142) for general use.

## GARAGE

**Lighting and Switch Outlets:** One ceiling outlet (Bryant No. H227 or H73) over the hood of the car. In multiple garages, additional ceiling outlets (Bryant H227 or H73) to provide one over the hood of each car. Switch control (Bryant No. 3951 or H61 or H51 flush or H361 for 3 $\frac{1}{4}$ " box) for these outlets at convenient location. In multiple garages, outlets should be so divided that no more than two are on the same switch.

One wall outlet on the exterior of the garage with multiple control (Bryant No. 3953 or H63 or H53 flush or H363 for 3 $\frac{1}{4}$ " box) from garage and house.

**Convenience Outlets:** \*One convenience outlet (Bryant No. 4832 or H142 flush or 3781 or H342 for 3 $\frac{1}{4}$ " box) on the rear wall at each car location installed not less than 4 feet above the floor.

## PLATES FOR SWITCHES AND CONVENIENCE OUTLETS

Metal plates for tumbler switches (Bryant No. OS61 or OS41) and for convenience outlets (Bryant No. OV61 or OV41) should be not less than .040" in thickness.

Bakelite plates for tumbler switches (Bryant No. 91071) and for convenience outlets (Bryant No. 91101).

## BRANCH CIRCUITS

Unless otherwise governed by existing regulations, the number of circuits to supply the lighting outlets in all rooms and all convenience outlets except those listed below, should be determined by providing one circuit for every 500 square feet of floor area of the house. (The floor area is computed from the outside dimensions of the house and should include all areas except open porches and unfinished spaces in the basement and attic.) Outlets supplied by these circuits should be divided as equally as possible.

Minimum wire size shall be #14 and careful consideration should be given to the need of #12 wire for situations where the distances from the distribution panel to the outlets is considerable.

The convenience outlets in the kitchen (or kitchenette), breakfast room, pantry, dining room (or dinette), should be supplied by at least one appliance branch circuit, and convenience outlets in the laundry should be supplied by at least one additional appliance branch circuit. The wire size of these appliance circuits should be no less than #12.

## RANGE CIRCUITS

For ranges up to 8500 watts, three #8 wires will be satisfactory if the length of the circuit does not exceed 40 feet. For greater lengths, the circuit shall be not smaller than two #6 and one #8 wires and shall be carried to the range location and terminated in the wall or floor in accordance with local regulations covering such connections. (Use Bryant No. 3846 for flush or 3826 for surface installations.)

## SPECIAL PURPOSE CIRCUITS

**Heaters:** Circuits of at least two #10 wires should be carried to suitable locations for each heavy duty heating unit planned for the kitchen, laundry or bathroom.

**Water Pump Motor:** Where pressure water service is not available, two #12 wires should be carried to the pumping system location and terminated at the motor control apparatus.

**Oil Burner or Stoker:** If an oil burner or automatic stoker is to be installed, a circuit consisting of two #12 conductors should be carried to the furnace room for connection to the apparatus. Emergency switch control should be provided at cellar entrance (Bryant No. 3883—3 $\frac{1}{4}$ " Box; No. 3884—4" Box).

**Air Conditioning Equipment:** If central air conditioning is planned, the wiring requirements should be based on the particular equipment chosen. Switch control (Bryant No. 4961 or 3951) should be provided.

## TELEPHONE

\*At least one outlet box with concealed wiring on each active floor. (Plates for boxes, Bryant No. OG61 brass or 91181 Bakelite).

## RADIO OUTLETS

At least three outlets with radio antenna and ground connections and power service (Bryant No. 22146 or 22184 complete units) in each 6 room or smaller house. Proportionately more in larger houses. The rooms in which such outlets are most often installed are the living room the kitchen, bedrooms, and the recreation room.

## ELECTRICAL SYMBOLS AND SELECTED BRYANT DEVICES

A selection of Bryant devices commonly used in residential specifications, arranged for convenient reference. Additional grades and types for the same application are shown in the catalog.

## AUXILIARY SYSTEMS

## Push Button

No. 3675, push button and No. OT11, .100" brass plate; .060", No. OT61.

## Telephone

Bakelite plate, No. 91181; brass, .100", No. OG11; .060", No. OG61.

## Clock (Low Voltage)

No. 2992 clock hanger outlet complete.

## Radio Outlet

One aerial, one ground, No. 22149; two aerials, one ground, No. 3811. Plates for above, bakelite No. 91091; brass, .060", No. OF61; .040", No. OF41.

## ELECTRICAL SYMBOLS FOR ARCHITECTURAL PLANS

## GENERAL OUTLETS

CEILING WALL

- —○ Outlet.  
 ⊙ —⊙ Capped Outlet.  
 ⊖ — Drop Cord.  
 ⊖ —⊖ Electrical Outlet—for use only when circle used alone might be confused with columns, plumbing symbols, etc.  
 ⊖ —⊖ Fan Outlet.  
 ⊖ —⊖ Junction Box.  
 ⊖ —⊖ Lamp Holder.  
 ⊖<sub>ps</sub> —⊖<sub>ps</sub> Lamp Holder with Pull Switch.  
 ⊖ —⊖ Pull Switch.  
 ⊖ —⊖ Outlet for Vapor Discharge Lamp.  
 ⊖ —⊖ Exit Light Outlet.  
 ⊖ —⊖ Clock Outlet (Lighting Voltage).  
 \* \* \* \* \*

## CONVENIENCE OUTLETS

- ⊖ — Duplex Convenience Outlet.  
 ⊖<sub>1,3</sub> — Convenience Outlet other than Duplex.  
 1=Single, 3=Triplex, etc.  
 ⊖<sub>wp</sub> — Weatherproof Convenience Outlet.  
 ⊖<sub>R</sub> — Range Outlet.  
 ⊖ —\$ Switch and Convenience Outlet.  
 ⊖ —[R] Radio and Convenience Outlet.  
 ⊖ —▲ Special Purpose Outlet (desc. in Spec.)  
 ⊖ —● Floor Outlet.  
 \* \* \* \* \*

## SWITCH OUTLETS

- \$ — Single Pole Switch.  
 \$<sub>2</sub> — Double Pole Switch.  
 \$<sub>3</sub> — Three Way Switch.  
 \$<sub>4</sub> — Four Way Switch.  
 \$<sub>D</sub> — Automatic Door Switch.  
 \$<sub>E</sub> — Electroliner Switch.  
 \$<sub>K</sub> — Key Operated Switch.  
 \$<sub>P</sub> — Switch and Pilot Lamp.  
 \$<sub>CB</sub> — Circuit Breaker.  
 \$<sub>wcb</sub> — Weatherproof Circuit Breaker.  
 \$<sub>MC</sub> — Momentary Contact Switch.  
 \$<sub>RC</sub> — Remote Control Switch.  
 \$<sub>WP</sub> — Weatherproof Switch.  
 \* \* \* \* \*

## SPECIAL OUTLETS

○<sub>a,b,c-etc</sub> — Any Standard Symbol as given above with the addition of a lower case sub-script letter may be used to designate some special variation of standard equipment of particular interest in a specific set of architectural plans.  
 ⊖<sub>a,b,c-etc</sub> —  
 \$<sub>a,b,c-etc</sub> —

When used they must be listed in the Key of Symbols on each drawing and if necessary further described in the specifications.

## PANELS, CIRCUITS &amp; MISCELLANEOUS

- — Lighting Panel.  
 ▨ — Power Panel.  
 — — Branch Circuit—Ceiling or Wall.  
 — — Branch Circuit—Floor.  
 --- — Note. Any circuit without further designation indicates a two-wire circuit. For a greater number of wires indicate as follows:  $\frac{///}{}$  (3 wires),  $\frac{///}{///}$  (4 wires), etc.  
 — — Feeders. Note: Use heavy lines and designate by number corresponding to listing in Feeder Schedule.  
 — — Underfloor Duct & Junction Box — Triple System. Note. For double or single systems eliminate one or two lines. This symbol is equally adaptable to auxiliary system layouts.

- ⊕ — Generator.  
 ⊖ — Motor.  
 ⊕ — Instrument.  
 ⊕ — Transformer.  
 ⊕ — Controller.  
 ⊕ — Isolating Switch.  
 \* \* \* \* \*

## AUXILIARY SYSTEMS

- — Push Button.  
 □ — Buzzer.  
 □ — Bell.  
 ◇ — Annunciator.  
 △ — Telephone.  
 ▢ — Telephone Switchboard.  
 ▢ — Clock (Low Voltage).  
 ▢ — Electric Door Opener.  
 ▢ — Fire Alarm Bell.  
 ▢ — Fire Alarm Station.  
 ▢ — City Fire Alarm Station.  
 ▢ — Fire Alarm Central Station.  
 ▢ — Automatic Fire Alarm Device.  
 ▢ — Watchman's Station.  
 ▢ — Watchman's Central Station.  
 ▢ — Horn.  
 ▢ — Nurse's Signal Plug.  
 ▢ — Maid's Signal Plug.  
 ▢ — Radio Outlet.  
 ▢ — Signal Central Station.  
 ▢ — Interconnection Box.  
 ▢ — Battery.

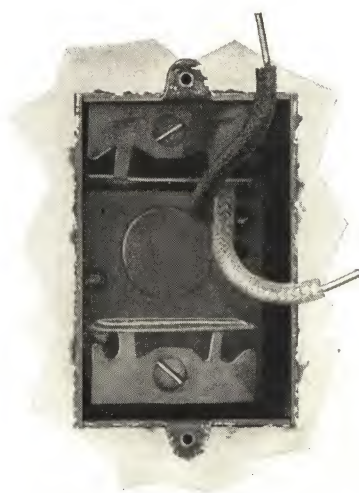

## Auxiliary System Circuits.

Note: Any line without further designation indicates a 2-wire circuit. For a greater number of wires designate with numerals in manner similar to — — 12-No. 18W- $\frac{3}{4}$ "-C., or designated by number corresponding to listing in schedule.

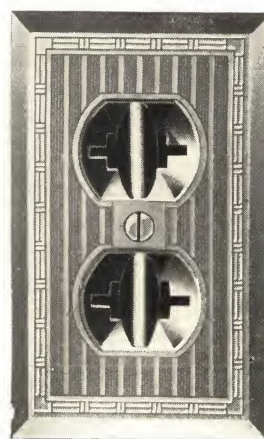

- <sub>abc</sub> — Special Auxiliary Outlets.  
 Sub-script letters refer to notes on plans or detailed description in specifications.

These symbols have been prepared by a technical sub-committee of ASA, Committee Z32, Standardization of Graphical Symbols and Abbreviations for use on Drawings, and have been submitted for approval as an American Standard to replace the symbols shown in ASA C10-1924.

The electrical symbols for architectural plans as finally approved by the ASA as an American Standard will be announced by that body in due course of time.

DESERVES  
A BRYANT DEVICE**

# List Price Bulletin No. 5

## Bryant and Hemco Wiring Devices

Dated October 20, 1941

Applying to Bryant Catalog No. 40

This supersedes and cancels all previous List Prices

### NOTICE

Effective October 9, 1941, all orders accepted by us will be subject to billing at prices in effect at time of shipment.

The fulfillment of any such orders will depend on our ability to secure the necessary base materials.

Certain exceptions to the foregoing are made as follows:

1. Orders accepted by us prior to the date of this notice will be billed at the prices prevailing at time of acceptance of order.
2. Orders for "building projects" will be billed at prices in effect at time of acceptance of order.
3. Identified "Defense" Orders (those covered by specific priority) will be billed at prices in effect at time of acceptance of order.

#### ASSEMBLY OF BRYANT "IL" DEVICES IN STRAPS

Bryant "IL" devices will be furnished assembled in mounting straps without extra charge when so specified for specific jobs only. Complete information as to location of devices in straps must be stated clearly on order.

#### DEDUCTION FOR OMISSION OF MOUNTING STRAPS

When "IL" two and three opening plates are to be used with IL13202, IL14202, IL18208 and IL14208, the mounting straps usually supplied with these plates are not needed. For omission of IL1348 strap from plate section in these cases deduct \$3.00 list per 100 gangs. Mounting straps may not be returned for credit.

#### PILOT AND NIGHT LIGHTS

Less Lamps—\$66.00 list per hundred. Add "X" to catalog number.

Clear Lamps — on catalog numbers IL1340 and IL1840-B—\$85.50 list per hundred.

Quantity Orders—Cat. Nos. IL1339, IL1339-B, IL1340 and IL1340-B, when ordered in lots of 1,000 or more, with delivery dates specified within 90 days from date of order, use the List Prices shown below.

|  | List Price Per C<br>Carton<br>Packing | Bulk<br>Packing |
|--|---------------------------------------|-----------------|
| Without Lamp, with Hood in Standard<br>Chrome Plated Finish..... | \$50.00                               | \$47.00         |
| Without Lamp, with Hood in Bright Dip<br>Finish .....            | 43.00                                 | 40.00           |
| Without Lamp, with Hood in Sprayed<br>Enamel Finish .....        | 45.00                                 | 42.00           |
| Complete with Lamp and Hood in Bright<br>Dip Finish .....        | 87.00                                 | 84.00           |
| Complete with Lamp and Hood in Sprayed<br>Enamel Finish .....    | 89.00                                 | 86.00           |

### PERMISSIBLE ASSORTMENTS

(Applying Only to One Order for One Shipment to One Destination.)

#### BRYANT "IL" WIRING DEVICES ONLY

Brown Bakelite, Black Bakelite or Ivory devices of the same type may be assorted in unbroken carton quantities to make up standard package quantities of Brown Devices in order to obtain standard package discounts.

#### MULTIPLE-GANG BRASS PLATES FOR BRYANT "IL" LINE

For horizontal Multiple-Gang plates of standard dimensions and screw spacings, but larger than those listed by catalog number, see page 19 of this bulletin. Section symbols are X1, X2, X3, and X4.

#### COMBINATION BRASS PLATES FOR BRYANT "IL" LINE

Combination plates for Bryant "IL" devices can be furnished in .040" and .060". When a combination plate is desired punched with openings for both Bryant Wiring Devices and Bryant "IL" Devices, such plate can be supplied in .040" and .060". Mounting straps of the proper type are furnished with each "IL" plate section.

A combination plate must be made up of two or more different symbols. The list price of any combination plate can be determined by adding together the list prices of the various gangs making up the combination.

For prices and other information on Brass Combination Plates for the Bryant "IL" line, see page 19 of this bulletin. The section symbols are X1, X2, X3 and X4.

#### SPECIAL METAL PLATES FOR BRYANT "IL" DEVICES

When Bryant "IL" plates are supplied in Special Metal, the list prices for special metals page 19 of this bulletin will apply.

#### SPECIAL FINISHES FOR METAL PLATES AND ACCESSORIES FOR BRYANT "IL" LINE

See page 18 of this bulletin.

\*IN MULTIPLE GANG AND COMBINATION PLATES, for each additional gang over one in the finishes listed above add \$15.00 list per 100.

SPECIAL FINISHES ON PLATES FOR FAN HANGERS take a 10% advance over the cost of special finishes for regular plates.

QUANTITY ORDERS—PLATES IN SPECIAL FINISHES: The quantity discounts on special finish plates are discontinued.

SPRAY BRASS FINISH: Any brass plate can be supplied in spray brass finish (the symbol for which is "P" following the catalog number) for \$1.00 list per hundred gangs less than the price of the same plate in brush brass finish.

CHROMIUM PLATING: Polished chromium will be furnished unless dull chromium is specified. Chromium plates are not lacquered.

PERMACHROME FINISH—Competitive Grade—can be furnished on tumbler switch, single and duplex convenience outlet plates in .040 inch metal, as listed by catalog number. See OS41-CD, OS41-CP, etc., catalog page 65.

PLATES FOR PLATING: Plates which are to be plated by the purchaser should be ordered "for plating". They will be billed at the price of corresponding brush brass plates.

PLATES FOR PAINTING: Plates, which are to be painted by the purchaser should be ordered "for painting". They will be billed at the price of the corresponding plate in spray brass finish.

HAMMERED PLATES—Solid Only—\$56.00 additional list per 100 gangs.

GOLD PLATING: The extra charge for genuine gold plating will be quoted on application.

BLACK BAKELITE PLATES: Same price as corresponding Ivory Bakelite Plate.

BRIGHT DIPPED LAMPHOLDERS—Deduct \$1.00 list per 100 for complete lampholders.

NICKEL OR GUN METAL FINISHES on brass shell competitive grade lampholders, (catalog numbers beginning with "H"), add \$6.00 list per 100 to the brush brass prices.

For mogul lampholders in special finishes, add double the prices listed above.

For twin lampholders in special finishes, add one and one-half times the prices listed above.

QUANTITY ORDERS — LAMPHOLDERS AND PARTS IN SPECIAL FINISHES: The quantity discounts on special finish lampholders and parts are discontinued.

## COMBINATION PLATES

(Two or More Different Sections)

Horizontal combination plates in two or three gangs are priced at the sum of the prices for the individual sections as shown in the following list.

Horizontal combination plates in four or more gangs are priced at the sum of the prices for the individual sections as shown in the following list plus 25%.

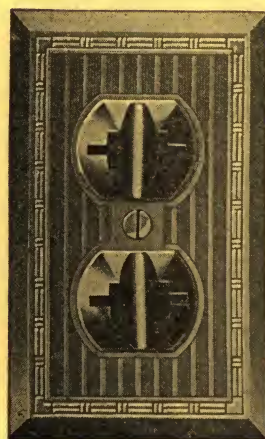

Combination plates of 9 gangs or over can be supplied in solid brass only.

For tandem combination plates add 25% to the price of the horizontal combination plates, including the same sections. Tandem plates are furnished in .100" only.

*The Prices Can be Matched; but the Values Can't be Equaled*

# BRYANTICS

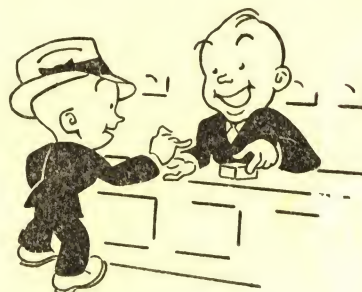

## *Prices?*

*yes,* we have devices competitively priced.

To prove it, we have tabulated on the inside pages some representative items having a list of 25¢ or less • A 25¢ list means a net selling price of 15.5¢ at suggested wholesale standard package discount, which is your customers' price. Items of less than 25¢ list have proportionally lower prices and are detailed in the schedule as to the net cost of standard package quantities at suggested wholesale discount • We are sure that the quality, workmanship and appearance of Bryant and Hemco devices together with the extremely low cost for a standard package will make it possible to sell in standard package lots.

## *Sell Standard Packages*
